    (A) Statutory meeting
    (B) Annual general meeting
    (C) Extra ordinary meeting
    (D) Emergency meeting

71. Operating system is a :
    (A) system software
    (B) application software
    (C) hardware
    (D) firmware

72. Binary number system has the base:
    (A) 10
    (B) 1
    (C) 2
    (D) 16

73. Nibble is a group of :
    (A) 4 bits
    (B) 6 bits
    (C) 8 bits
    (D) 16 bits

74. UNIX is a :
    (A) Programming language
    (B) Compiler
    (C) Operating system
    (D) File system

75. In a hard disk, each track is a collection of :
    (A) cylinders
    (B) disks
    (C) files
    (D) sectors

76. Which of the following is not an input device?
    (A) microphone
    (B) stylus
    (C) speaker
    (D) joystick

77. Which of the following is not true about ROM?
    (A) firmware
    (B) volatile
    (C) read only
    (D) none of these

78. NTFS is :

    (A) Network switch   (B) Router

    (C) Operating system   (D) File system

79. Which of the following is not a web browser?

    (A) Internet Explorer   (B) Mozilla Firefox

    (C) Opera   (D) Apache

80. Graphic representation of program logic sequence is known as :

    (A) Icons   (B) Algorithm

    (C) Flow chart   (D) Pseudo code

81. An installation file usually have the following extension :

    (A) .org   (B) .doc

    (C) .zip   (D) .exe

82. Blue tooth is a :

    (A) wireless network   (B) anti virus

    (C) wired LAN   (D) type of mobile phone

83. Which of the following is not an Internet access method?

    (A) DSL   (B) Dial up

    (C) Podcast   (D) Cable

84. 1 GB is :

    (A) 1024 bits   (B) 1024 bytes

    (C) 1024 KB   (D) 1024 MB

85. Which of the following is not an example for a search engine?

    (A) Google   (B) Face book

    (C) Yahoo   (D) AltaVista

86. Which of the following is not a monitor type?

    (A) CRT   (B) LCD

    (C) LED   (D) Blu-ray

87. The BIOS is responsible for handling :

    (A) Memory

    (B) Input output operations

    (C) File management

    (D) Directory management

88. A small text file that some web sites automatically store on your hard drive when you visit the site is called :

    (A) Spam

    (B) Blog

    (C) Cookie

    (D) Worm

89. GIF is a file format usually associated with :

    (A) Documents

    (B) Spread sheets

    (C) Images

    (D) Compressed files

90. In Programming, syntax error is:

    (A) Violation of programming language's rule

    (B) Use of incorrect sequence of statements

    (C) Due to lack of free memory space

    (D) Logical mistake of the program

91. When a program's address space can be greater than its actual real memory, the system is said to implement :

    (A) Cache memory

    (B) Virtual memory

    (C) Secondary memory

    (D) File management

92. Compiler is used to translate :

    (A) machine language into high level language

    (B) assembly language into high level language

    (C) high level language into machine language

    (D) high level language into assembly language

93. Trojan horse is a :

    (A) Search engine

    (B) Operating system

    (C) Programming language

    (D) Malicious software

94. Broadcasting of audio or video content over the Internet is known as :

   (A) Wiki

   (B) Webcast

   (C) Blog

   (D) Instant messaging

95. Microsoft Excel is a software for :

   (A) Word processing

   (B) Spread sheet

   (C) Database

   (D) Presentation

96. Bootstrap loader is a program normally stored in :

   (A) ROM

   (B) RAM

   (C) Hard disk

   (D) Cache memory

97. Firewalls are used for :

   (A) Cyber security

   (B) E-commerce

   (C) E-mail

   (D) Wireless networks

98. An example of impact type printer is :

   (A) Dot matrix

   (B) Inkjet

   (C) Laser

   (D) All of these

99. The IEEE standard for wireless LAN is :

   (A) 802.2

   (B) 802.11

   (C) 802.3

   (D) 802.13

100. In Database Management System, the overall design of the database is called :

   (A) Entity

   (B) Schema

   (C) Data manager

   (D) DML
