

### 099/2018

Question Booklet Alpha Code A

Question Booklet Serial Number

Time : 75 Minutes

Total Number of Questions : 100

Maximum Marks : 100

- 1. The question paper will be given in the form of a Question Booklet. There will be four versions of question booklets with question booklet alpha code viz. **A**, **B**, **C** & **D**.
- 2. The Question Booklet Alpha Code will be printed on the top left margin of the facing sheet of the question booklet.
- 3. The Question Booklet Alpha Code allotted to you will be noted in your seating position in the Examination Hall.
- 4. If you get a question booklet where the alpha code does not match to the allotted alpha code in the seating position, please draw the attention of the Invigilator IMMEDIATELY.
- 5. The Question Booklet Serial Number is printed on the top right margin of the facing sheet. If your question booklet is un-numbered, please get it replaced by new question booklet with same alpha code.
- 6. The question booklet will be sealed at the middle of the right margin. Candidate should not open the question booklet, until the indication is given to start answering.
- 7. Immediately after the commencement of the examination, the candidate should check that the question booklet supplied to him contains all the 100 questions in serial order. The question booklet does not have unprinted or torn or missing pages and if so he/she should bring it to the notice of the Invigilator and get it replaced by a complete booklet with same alpha code. This is most important.
- 8. A blank sheet of paper is attached to the question booklet. This may be used for rough work.
- 9. Please read carefully all the instructions on the reverse of the Answer Sheet before marking your answers.
- 10. Each question is provided with four choices (A), (B), (C) and (D) having one correct answer. Choose the correct answer and darken the bubble corresponding to the question number using Blue or Black Ball Point Pen in the OMR Answer Sheet.
- 11. Each correct answer carries 1 mark and for each wrong answer 1/3 mark will be deducted. No negative mark for unattended questions.
- 12. No candidate will be allowed to leave the examination hall till the end of the session and without handing over his/her Answer Sheet to the Invigilator. Candidates should ensure that the Invigilator has verified all the entries in the Register Number Coding Sheet and that the Invigilator has affixed his/her signature in the space provided.
- 13. Strict compliance of instructions is essential. Any malpractice or attempt to commit any kind of malpractice in the Examination will result in the disqualification of the candidate.

.

Which pulley is fitted on the belt to increase the arc of contact ? 60. (A) Stepped pulley (B) Cone pulley (C) Jockey pulley (D) Driver pulley **61**. Which tool is used to form the final shape of the rivet during riveting ? (A) Rivet set (B) Dolly (C) Snap (D) Drift A gear which changes the rotary motion into linear motion and vice-versa : 62. (A) Bevel gear (B) Hypoid gear (C) Worm gear (D) Rack and Pinion 63. Hook of cranes are made up of \_\_\_\_\_ (A) High speed steel (B) High carbon steel (C) Wrought iron (D) Pig iron **64**. The product of Puddling furnace is \_\_\_\_\_ (A) Steel (C) Cast iron (B) Pig iron (D) Wrought iron **65**. Soldering iron is made of \_\_\_\_\_. Tungston (A) Copper (B) (C) Mild steel (D) Lead 66. The distance a drill advances into the job in one complete revolution : (A) RPM (B) Cutting speed (C) Machine speed (D) Feed Which plug gauge has GO and NO GO end on the same side ? 67. (A) Taper plug gauge (B) Ring gauge (C) Progressive plug gauge (D) Thread plug gauge **68**. The process of joining slip gauges is known as \_\_\_\_\_ (A) Adhesive (B) Cohesive (C) Wringing (D) Fitting 099/2018 10

When temperature rises, what will happen to the viscosity of an oil ? 69. (A) Increase (B) Decrease Increase to Decrease (D) No change (C) Reamer should always be rotated in \_\_\_\_\_\_ direction. 70. (A) Clockwise (B) Anticlockwise (C) Clockwise and Anticlockwise (D) None of the above 71. Which metal is more ductile ? (A) Mild steel (B) Copper (C) Cast iron (D) Gun metal Rough hole in drilling is due to \_\_\_\_\_ 72. (A) Spindle running out of centre (B) Drill point is not sharp (C) Feed rate is very high (D) Unequal length of cutting lips 73. The ore of Lead is \_\_\_\_\_ (A) Galena (B) Boxite (C) Iron pyrites (D) Copper pyrites Example of natural abrasive : 74. (A) Aluminium oxide (B) Silicon carbide (C) Emery (D) Boron carbide 75. The relationship between two matting parts a hole and a shaft is \_\_\_\_\_ (A) Limit (B) Fit (C) Tolerance (D) Deviation Which one of the following metal has less carbon content? 76. (A) Cast iron (B) Pig iron (C) Plain carbon steel (D) Wrought iron 099/2018 Α 11
